

Notice of Non-Responsive Amendment

The reply filed on June 2, 2008 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): In the restriction/election requirement mailed on May 1, 2008, applicant was required, in reply to this action, to elect a single species for a compound of formula I (see claim 1). Applicant elected the species wherein R1 is methoxy, R2 is ethoxy, R3 is Hydrogen, R31 is Hydrogen, R4 is –OH, R5 is Hydrogen, HAR is Pyridinyl, optionally substituted by R6 and/or R7 and/or R8, R6 is methoxy and R7 is methoxy. However, applicant did not specify the following: 1- which position of the pyridinyl group is attached to the molecule, 2- the word optionally indicates a choice that examiner is not supposed to make, applicant should provide with the exact substituents in the exact positions so there is no ambiguity to which structure applicant is referring to. 3- there is no R8 elected. In summary, applicant should provide one specific structure with no ambiguity regarding substituents and/or positional isomers.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
